ABOUT THE BAND

BIOGRAPHY

Dream of Fire is an alternative rock and melodic metal band from San José, Costa Rica. Formed in 2009 by Marco Salas, Jacobo Chaverri, and Alberto Terán, the band has built a reputation for combining heavy, energetic riffs with unforgettable melodies and a powerful vocal approach.

Their sound sits at the crossroads of alternative rock and hard rock, driven by introspective lyrics that explore the depths of human experience — identity, struggle, transformation, and resilience. What sets Dream of Fire apart in the Latin American rock scene is their ability to deliver emotionally charged performances with the precision and dynamics of a seasoned international act.

Since forming, the band has released a body of work that has earned them loyal fans across Costa Rica and beyond. Their 2016 debut LP *Waking Tyrants* established their signature sound, followed by *Dust and Shadows* (2019), which showcased their growth as songwriters and performers.

Their 2024 single *MINCE*, released through Long Beach Records LATAM, marks their most mature work to date — a calculated, hard-hitting statement from a band firing on all cylinders.
